The top line: BUY.

The Good:

- ✓ Free of fragrances, dyes, preservatives, and brighteners
- ✓ Extremely simple ingredient list, with organic essential oils for scented options (we LOVE the lavender)
- ✓ Made in the USA (Chicago!)
- ✓ Highly concentrated with 1 tablespoon enough in a standard washing machine, or 1/2 scoop for a high efficiency machine
- ✓ Septic safe and 100% biodegradable
- ✓ Great to use for handwashing delicates or spot cleaning as well
- ✓ Plastic free!

The Bad:

- ✗ Powder can be a bit more messy than pods, but we will live with it given the savings!
